

## SHIP ENVIRONMENTAL OFFICER

**Course aim and objectives:** The course provides participants with the knowledge required to understand the duties and responsibilities of the ship's environmental officer who should have the experience and skills to supervise environmental protection issues related to the crew and ship operational matters. A ship's environmental officer is the role model responsible for ensuring compliance with the safety and environmental management system and promoting safety and environmental protection culture on board.

**Course main elements:**

- ISM Code pollution prevention requirements and workplace environment
- Duties and responsibilities of a ship's environmental officer
- Record keeping, hazard identification and assessment of risks
- Reporting requirements, operational issues and environmental inspections
- Record keeping, training and drills
- Practical exercises, workshops

**Course participation:** The course is open to shipping company safety and environmental superintendents, shipboard environmental officers and shipboard team members. Upon registration a link shall be provided to participants for accessing the course

**Course duration:** **1 day** This training program is provided in 6-hours with real time instruction through zoom platform in a pre-scheduled interactive learning session
