

## ISO 14001: 2015

# ENVIRONMENTAL MANAGEMENT SYSTEMS

**Course aim and objectives:** ISO 14001:2015 environmental management international standard motivates shipping companies to go above and beyond the minimum MARPOL requirements and conform with the increasing environmental requirements of the maritime industry. Integration and implementation of the provisions of the standard through the company's management system procedures satisfies stakeholders, company customers and environmental authorities. This course provides participants with the knowledge and methodology for continual improvement by implementing a comprehensive environmental management system satisfying regulations and conforming with industry best practices

**Course main elements:**

- ISO 14001:2015 scope, terms, and structure
- Overview of MARPOL environmental regulatory framework
- Environmental management system structure as per ISO 14001:2015
- Identification of environmental aspects, impacts, and related programs
- Integration in safety management systems and certification process
- Practical exercises and final examination

**Course participation:** The course is open to shipping company corporate safety, quality and environmental managers, designated person(s), fleet superintendents, shipboard environmental officers

**Course duration:** **1 day** This training is provided with real time instruction through zoom platform in a pre-scheduled interactive learning session

**Course Schedule:** 10:00 - 17:00 hours daily

**Registration:** Please complete the course registration form or contact Mrs. Angie Panagiotarakou email: [training@dynamarine.com](mailto:training@dynamarine.com) Tel: (+30) 210 894 1667
