

ENVIRONMENTAL MANAGEMENT SYSTEMS

INTERNAL AUDITOR

Course aim and objectives: The course provides participants with the knowledge and tools for becoming qualified internal auditor of an environmental management system integrated in marine management systems. Focused attention is targeted on the development, implementation and completion of the audit process for continual improvements of the system with reference to ISO 19011

Course main elements:

- ISO 14001:2015 provisions
- Audit stages and process
- Preparing the audit program
- Conducting, reporting and follow up audit verification
- Audit investigation and communication techniques
- Non-conformity handling
- Practical exercises and final examination

Course participation: The course is open to shipping company safety, quality and environmental managers, DPAs, company internal auditing team and shipboard team involved in the auditing process

Course duration: 2 days This training program is provided in 12-hours with real time instruction through zoom platform in two 6-hour pre-scheduled interactive learning sessions. Upon registration a link shall be provided to participants for accessing the course
