

US ENVIRONMENTAL COMPLIANCE PLAN

Course aim and objectives: The course provides participants with the knowledge and tools for understanding the US Environmental Compliance Plan for shipping companies operating vessels to and from US waters. Due to the number of increased US pollution incidents and heavy penalties imposed by US courts involving ships' trading in US waters, it makes sense for shipping companies to be proactively aware of the US Environmental Compliance Programs, implications, and defense mechanisms for handling effectively such issues rather than a last moment approach

Course main elements:

- US enforcement controls while trading vessels in US waters
- US marine environmental protection requirements and implementation
- US Department of Justice approach and expectations
- Corporate accountability and commitment
- Environmental compliance management systems
- Environmental compliance programs
- Environmental compliance audits
- Recognition of employees reporting violations
- Company environmental campaigns
- Practical workshops and exercises

Course participation: The course is open to shipping company corporate managers, technical managers, safety, quality, environmental managers, environmental officers, fleet superintendents, designated persons, and senior shipboard team members involved in the compliance process

Course duration: 2 days This training is provided in with real time instruction through zoom platform in two pre-scheduled interactive learning sessions

Course Schedule: 10:00 - 17:00 hours daily
