

VETTING INSPECTIONS FOR BULK CARRIERS

Course aim and objectives: This course provides participants with the required knowledge for understanding the criteria of bulk carrier vetting inspections and process combined with DBMS assessments for bulker ship operators. The course explains the strategies for managing the preparation of crew and vessel to pass a successful on-board vetting inspection based on the criteria introduced by the revised RightShip (Inspection Ship Questionnaire – RISQ) so as to avoid high risk observations which can eventually have negative impact on the vessel's commercial and trading prospects

Course main elements:

- Introduction to RightShip's - RISQ
- Scope of the inspection
- Objectives, preparation and management of the inspection
- Sections of the RISQ
- Inspection report and non-conformity handling
- Corrective action implementation
- Benefits of successful completion of the inspection
- Practical exercises

Course participation: The course is open to shipping company management, operations, technical, commercial, quality, safety, crew managers, superintendents, internal auditing team, masters and shipboard officers involved in the on-board vetting inspection process

Course duration: 2 days This training program is provided in 12 hours with real time instruction through zoom platform in two 6-hour pre-scheduled interactive learning sessions
