

CRISIS MANAGEMENT & MEDIA HANDLING

Course aim and objectives: This course provides participants with the required knowledge and understanding for responding incidents which if not properly handled may lead to an emergency in which planning and effective response is required as well as deploying and utilizing available resources and controls for mitigating the potential and consequences of such events as well as safety and environmental impact. In addition, the course familiarizes participants with the techniques and training required for effective response and control of the types of shipboard related emergencies through practical implementation of a simulated real time table-top drill

Course main elements:

- Ship-board risks and elements of crisis management
- Emergency organization and effective response planning
- Readiness and prevention
- Training, drills and assessment of safety performance
- Reference to past incident reports
- Media handling techniques
- Effective implementation through a real time simulated table-top drill
- Practical examples and workshops

Course participation: The course is open to shipping company managers, operators, designated person(s), superintendents, masters and shipboard officers as well as the emergency response office and shipboard team

Course duration: 2 days This training program is provided in 12-hours with real time instruction through zoom platform in two 6-hour pre-scheduled interactive learning sessions Upon registration a link shall be provided to participants for accessing the course

Course Schedule: 10:00 – 17:00 hours daily (including 30 minutes additional time daily for Q & A and completion of classwork)
