

## MARINE INTERNAL AUDITOR OF INTEGRATED MANAGEMENT SYSTEMS

**Course aim and objectives:** Shipping companies implement integrated safety management systems with elements from ISO and other international standards for conforming to the rapidly changing maritime industry recommendations. This process provides the benefit of maintaining a corporate structured integrated management system enhancing continual improvement, operational efficiency, and business growth. The course provides participants with knowledge for conducting integrated management system verification and qualifies participants as company internal auditors in accordance with established auditing principles for performing periodical internal audits of integrated management systems

**Course main elements:**

- Internal audit requirements of the ISM Code, ISO 9001: 2015, ISO 14001: 2015, ISO 45001: 2018, ISO 50001:2018
- ISO 19011: 2018 guidelines for auditing management systems
- Marine integrated management systems risk control dynamics
- Assessing and implementing changes made to the management system
- Development of effective integrated management system internal audit program
- Planning, conducting, reporting, and following up on internal audits of an integrated management system
- Determining and handling of a non-conformity
- Practical workshops, case studies and final examination

**Course participation:** The course is open to shipping company corporate safety, quality managers, designated persons, fleet superintendents, internal auditors, and company employees with auditing responsibilities of the management system. Prior knowledge of the ISM Code and of the relevant ISO standards is recommended

**Course duration: 3 days** This training is provided with real time instruction through zoom platform in three pre-scheduled interactive learning sessions

**Course Schedule:** 10:00 - 17:00 hours daily
