

MARINE INTERNAL AUDITOR OF INTEGRATED MANAGEMENT SYSTEMS

Course aim and objectives: Shipping companies implement safety management systems integrated with elements of ISO, MLC & ISPS, international standards, conventions and regulations for complying and conforming with regulations and the changing maritime industry requirements. This process provides the benefit of maintaining a corporate structured integrated management system enhancing continual improvement and ensuring ongoing performance improvement. The course provides the required knowledge for conducting integrated management system verification and qualifies participants as company internal auditors in accordance with established auditing principles for performing periodical internal audits of an integrated management system.

Course main elements:

- Internal audit requirements of the ISM Code, ISPS, MLC ISO 9001: 2015, ISO 14001: 2015, ISO 45001: 2018, ISO 50001:2018
- ISO 19001: 2018 guidelines for the internal auditing of management systems
- Marine Integrated Management Systems risk control dynamics
- Integrated Management Systems effective implementation
- Development of an effective integrated management system internal audit program
- Planning, conducting, reporting and following up on internal audits of an integrated management system
- Determining and handling of a non-conformity
- Practical exercises, case studies and final examination

Course participation: The course is open to shipping company managers, superintendents, internal auditors and office employees with responsibilities in the management system internal audit team
