

ISM CODE - LEAD AUDITOR

Course aim and objectives: This course provides upgrading knowledge to those who have already previous auditor's experience and good understanding of the ISM Code requirements, for being qualified as lead ISM auditors. Extensive reference is made throughout the course to audit criteria and applicable audit standards, case studies, the stages for performing and successfully completing the audit as well as the process of raising a finding to non-conformity and the approach to the safety management system audit by the lead auditor

Course main elements:

- Overview of ISM Code requirements for effective SMS implementation
- SMS risk control dynamics for continual improvement
- Audit techniques and lead auditor skills
- The audit program and stages of the audit process
- Audit investigation and lead auditor communication techniques
- Determining and handling a non-conformity
- Effective report writing
- Practical exercises, case studies and final examination

Course participation: The course is open to those who already hold certification as auditors by an accredited organization and have completed at least 1 SMS audit while working in the maritime industry

Course duration: **3 days** This training is provided with real time instruction through zoom platform in three pre-scheduled interactive learning sessions
