

SHIP SAFETY OFFICER

Course aim and objectives: The course provides participants with the knowledge required to understand the duties and responsibilities of the ship's safety officer who should have the experience and skills to supervise health and safety issues related to the crew and ship operational matters. A ship's safety officer is the role model responsible for ensuring compliance with the safety management system and promoting safety culture on board. The course is also based on the principles of IMO Model Course 3.11

Course main elements:

- ISM Code safe practices in ship operations and workplace environment
- Duties and responsibilities of a ship's safety officer
- Record keeping, hazard identification and assessment of risks
- Reporting requirements, operational issues and safety inspections
- Safety culture on board and training requirements
- Practical exercises, case studies and final examination

Course participation: The course is open to shipping company managers, superintendents, masters and shipboard safety officers
