

## SHIP SAFETY OFFICER

**Course aim and objectives:** The course provides participants with knowledge to understand the duties and responsibilities of the ship's safety officer who should have the skills to supervise safety issues related to the crew and ship's operational matters. A ship's safety officer is the role model responsible for ensuring compliance with the safety management system and promoting safety culture on board for operational efficiency

**Course main elements:**

- ISM Code safe practices in ship operations and workplace environment
- Duties and responsibilities of the ship's safety officer
- Record keeping, hazard identification and assessment of risks
- Reporting requirements, operational issues, and safety inspections
- Safety culture on board and training requirements
- Practical workshops

**Course participation:** The course is open to shipping company safety managers, safety superintendents, shipboard safety officers and shipboard safety team members

**Course duration: 1 day** This training is provided with real time instruction through zoom platform in a pre-scheduled interactive learning session
