

## ISM CODE-DESIGNATED PERSON ASHORE (DPA) REFRESHER

**Course aim and objectives:** The ISM Code requires shipping companies managing and operating ships to appoint a designated person ashore (DPA) for effectively monitoring and implementing the company's safety management system. The course provides participants with refresher knowledge and updates so that DPAs are on par with the latest requirements and guidelines. It is important for DPAs to receive a refresher training to ensure compliance with the latest updated requirements

### Course main elements:

- Updates by IMO for implementation by Flag Administrations
- Updates by IMO for implementation by PSC authorities
- Effective implementation of a Safety Management System
- DPA's authority and responsibility
- Verification and monitoring of safety and pollution prevention activities
- Communications with the fleet
- Safety issues regarding fleet operations issues
- Practical workshops

**Course participation:** This refresher course is open to shipping company DPAs, managers, superintendents, and senior shipboard members with experience in shipping company fleet operational matters

**Course duration:** **1 day** This training is provided with real time instruction through zoom platform in a pre-scheduled interactive web-based learning session

**Course Schedule:** 10:00 - 17:00 hours
