

SHIP SECURITY OFFICER

Course aim and objectives: The course provides participants with knowledge to effectively implement the duties and responsibilities of the ship's security officer (SSO) who should have the skills to supervise and respond to security threats related to ship security operational matters. SSO is responsible for ensuring compliance with the ship's security plan as well as review, report and respond according to the plan to operational security risks and threats

Course main elements:

- Overview of ISPS Code requirements and updates
- Review and implementation of ship security plan
- Duties and responsibilities of the ship security officer
- Record keeping, reviewing, responding, and reporting risks and threats
- Security training and drills for shipboard personnel with designated duties
- Preparation for ship's interfacing with high risk areas
- Practical workshops and exercises

Course participation: The course is open to any ship security officers, security superintendents, masters, and senior shipboard team members with designated security duties

Course duration: 2 days This training is provided with real time instruction through zoom platform in two pre-scheduled interactive learning sessions

Course Schedule: 10:00 - 17:00 hours daily
