

## MARINE INTEGRATED MANAGEMENT SYSTEMS AWARENESS & IMPLEMENTATION

**Course aim and objectives:** Shipping companies implement safety management systems based on ISM Code integrated with elements of various maritime industry standards such as ISO, TMSA, DRY-BMS etc, for conforming with evolving maritime regulations and maritime industry recommendations. The course provides participants with knowledge of how to develop, document, harmonize, implement, and maintain a corporate structured marine integrated management system for enhancing continual improvement, safety culture, operational efficiency, and business growth

**Course main elements:**

- Marine integrated management systems essentials
- Risk control dynamics integrated by effective management of changes
- Reviewing processes, procedures, and applicable standards
- Developing, documenting, harmonizing, implementing, and maintaining marine integrated management systems
- Certification process of marine integrated management systems
- Practical workshops, case studies and final examination

**Course participation:** The course is open to shipping company corporate safety, quality managers, designated persons, fleet superintendents, office employees and shipboard team members with responsibilities for implementing and maintaining a marine integrated management system

**Course duration: 2 days** This training program is provided with real time instruction through zoom platform in two pre-scheduled interactive learning sessions
