

INTERNAL AUDITOR OF INTEGRATED MANAGEMENT SYSTEMS

Course aim and objectives: Shipping companies implement integrated safety management systems based on ISM Code combined with the provisions of ISO and other international standards for conforming to the rapidly changing maritime industry recommendations. This process provides the benefit of maintaining a corporate structured integrated management system enhancing continual improvement, operational efficiency, and business growth. The course provides participants with knowledge for conducting integrated management system verification and qualifies participants as company internal auditors in accordance with established auditing criteria for performing periodical internal audits of integrated management systems

Course main elements:

- Overview of requirements ISO 9001: 2015 QMS, ISO 14001: 2015 EMS, 45001:2018 OHSMS
- ISO 19011: 2018 guidelines for auditing management systems
- Marine integrated management systems risk control dynamics
- Assessing and implementing changes made to the management system
- Effective integrated management system internal audit program
- Planning, conducting, reporting, and following up on internal audits of an integrated management system
- Determining and handling of a non-conformity
- Practical workshops, and final examination

Course participation: The course is open to shipping company corporate safety, quality managers, designated persons, fleet superintendents, internal auditors, and company employees with auditing responsibilities of the management system.

Course duration: 2 days This training is provided with real time instruction through teams platform in three pre-scheduled interactive learning sessions

Course Schedule: 10:00 - 17:00 hours daily

Fees: Euros 350 per day per participant. Discount of 10% is offered to individual participants registering to this course. Group discounts of 15% are also arranged for companies registering 3+ participants
