

COMPANY SECURITY OFFICER

Course aim and objectives: This course provides participants with refresher knowledge to effectively implement the duties and responsibilities of the Company Security Officer (CSO) who should have the skills to manage the fleet issues related to the ship security operational matters. The CSO is responsible for ensuring compliance of the fleet with the ship's security plan and review of the plan as necessary to proactively organize effective response plans for ships passing through high-risk areas confronted by security threats

Course main elements:

- Overview of ISPS Code requirements and updates
- Ship security assessment and ship security plan implementation
- Duties and responsibilities of the Company Security Officer
- Record keeping, review, reporting and responding to risks and threats
- Security training and drills for crew members
- Practical workshops, exercises, and final examination

Course participation: The course is open to shipping Company Security Officers, security superintendents, masters and senior shipboard team members with designated ship security duties including incident response

Course duration: **2 days** This training is provided real time instruction through zoom platform in two pre-scheduled interactive learning sessions

Course Schedule: 10:00 - 17:00 hours daily
