

## Marine Internal Auditor of ISM, ISPS, MLC

### Course aim and objectives:

This course provides the required knowledge for conducting combined ISM, ISPS, MLC management system audits and qualifies participants in compliance with the relevant requirements. The Maritime Labour Convention (ILO-MLC 2006) does not stipulate the requirement for internal audits, however, MLC inspections can be integrated in the company's safety management system and carried out accordingly.

### Course main elements:

- ISM, ISPS, MLC relevant requirements
- Performing harmonized audits of a management system
- Joint elements with focus on differences
- Development of harmonized internal audit programs
- Audit investigation techniques
- Planning, conducting, reporting and following up on the audit process
- Determining and handling of a non-conformity
- Practical exercises, case studies and final examination

### Course participation:

The course is open to shipping company quality managers, designated person(s) ashore, company security officers, superintendents with auditing responsibilities as well as ship-board members involved in the audit process. Prior knowledge of the ISM and ISPS Codes as well as ILO-MLC 2006 is required for attending the course

### Course duration: 2 days

This training program is currently provided in 12-hours with real time instruction through a dedicated e-platform in 3 four-hour pre-scheduled interactive web-based learning sessions.
